

## Our Aims

Keep Our NHS Public aims to:

- End privatisation of the NHS and bring back government responsibility, ownership and accountability.
- Repeal the Health and Social Care Act 2012 and enact the Pollock-Roderick NHS Bill (now put forward as a Private Members' Bill – 'The NHS Bill 2015-16') in the House of Commons.
- End expensive and compulsory competition, reject the Transatlantic Trade & Investment Partnership (TTIP) and reverse all foundation trust plans.
- Commit to 4% real terms annual increase in funding from taxation to provide a comprehensive, publicly provided, top quality NHS for all, safe staffing levels and fair conditions for staff.
- Halt harmful cost-driven NHS cuts and closures. Any service reconfigurations must be driven by evidence-based clinical need, not cost, and be subject to meaningful public consultation;
- Halt all new private finance initiatives (PFIs). Independent review of PFI deals with effective action to reduce unfair PFI debts.

Join us now: the NHS is being taken away from us. Fight for it.
